

# My School

Made for the children of  
Room 1

This is the door to our  
classroom.

There are cubbies for all of the children. A cubby is a place where special things are kept.

There are tables by the door. We eat snack and do activities on the tables.

Sometimes we create  
artwork at the tables.

There are toys in the  
classroom.

Blocks are for building.

There are places for  
writing and drawing.

There is a cozy space in the classroom where we can read books.

Science materials are for exploring. We have a tree in our classroom, too!

The classroom has baby dolls and a kitchen area.

There is a sink where we wash our hands when we get to school and at other times throughout the day.

The diaper changing area  
has stairs.

In the back room, we can move our bodies in many ways. We also sing and dance here.

Outdoors there is a grass area and a big tree.

There is a climbing structure and patio.

There are many places to  
play outdoors.

We have some plants in our garden.

There is a sink and water fountain outdoors.

At the end of the day, the families come back and everyone goes home through the door.

The End
